SUSTAINABLE FASHION

SPRING | SUMMER 2025

LASALLE

Since 1991 our vision for LaSalle has been to create a wardrobe of timeless luxury pieces. Beautiful, practical and versatile clothing that women can love, cherish and wear forever.

The new collection is all about effortless separates and breezy silhouettes – luxurious pieces in superior fabrics, designed and developed to last. Boxy shaped tops, fluid trousers and exaggerated sleeves stand next to slim, fitted shapes. The different shapes and volumes are to be combined to create a contrasting yet balanced look.

For SS25, dresses in high quality fabrics are at the heart of the collection. Colors are softly hued, the naturals highly present. The favorite cotton/satin stretch returns in fresh colors and styles for elevated day wear. A satin viscose gives fluidity to garments that gently hug the body. Luxurious printed silks will add glamour to your wardrobe. Our signature shirt dresses are a must have this and every season.

We have introduced light and unstructured tailoring for a more polished look for office or sophisticated day wear. Also new is a cotton voile featuring voluminous shapes that are light and ethereal, available in two gorgeous prints.

The Scarf Collection stands on its own with different shapes, bright colors and light fabrics. Seasonal colors are also represented, to be combined with the garment collection for a total look.

At LaSalle we believe that the only trend that truly works from season to season is remaining timeless. Understated cool combined with elegance – it is ageless.

Make it your own and have fun with it!

Ana Nikovska
Creative Director

BEHIND THE SCENES

Our design team is based in Amsterdam where the collection is meticulously put together. We are deeply passionate about fabrics and yarns, carefully selecting them to ensure high quality, durability and wearability. From the beginning of our story, more than 30 years ago, we made a conscious decision to work primarily with high quality natural materials.

Now a growing number of our base materials are certified – Oekotex certified cotton, FSC certified viscose (sourced from sustainably managed plantations), Eco-Travel quality that does not wrinkle. By committing to using Lyocell® we support clean air, clean water and a healthy environment. Dry cleaning is avoided in favor of hand and machine washing in cold water.

We are proud to say that our apparel collection is almost exclusively *Made in Europe*. Our garment suppliers are based in Italy, Macedonia and Poland. Fabrics and yarns are sourced from some of the best suppliers in Italy and Portugal so that LaSalle garments will stay beautiful for a long time if cared for with love.

We work very closely with our suppliers, who are highly skilled, in some cases with artisanal tradition and technology. We visit them often and have strong personal relationships - with some we have been working for more than 20 years. Through time these relationships become deeper, the connections stronger.

Sustainability concerns all of us and should be everyone's responsibility. By making small changes we can all make an impact. We strive to educate ourselves every day and make better choices. We hope you will join us and be part of the change.
